

SPV M3100

The **SPV M3100** from Orange: built with the capabilities of a laptop, but in the size of a mobile phone. With 3G and Wifi connections, Microsoft® Office capabilities, Bluetooth® and 128MB of internal memory, you can work just as efficiently out of the office. Not only can you send and receive email, you can view and edit attachments on the 262K colour screen. When you can't be there in person, interact with colleagues and clients using the video calling capabilities. The great side sliding mechanism provides you with all the functionality of a full QWERTY keyboard, in a device that's small enough to fit in your pocket.
